"BM180 PLUS^{MkIII}" with folding legs/transport position

PACKAGE

2 "BM180 PLUS^{MkIII}" combined

Working dim.: 360x100 cm

2 "BM180 PLUS^{MkIII}" combined

Working dim.: 360x150 cm

- BM 180 PLUS^{MkIII} is a variable width table designed to be the perfect workstation for large format tiles up to 160 cm (5.3') and to be easy to transport;
- With few simple movements, the width of the worktop can vary from a minimum of 100 cm (3.3') to a maximum of 150 cm (5') with intermediate steps;
- In order to obtain an optimal worktop for any chosen width, the aluminum profiles are easily movable;
- When changing the width of the table the legs move as well, therefore they always maintain the optimal position to guarantee the maximum stability and strength of the bench at any chosen width;
- Stable and robust thanks to the steel structure, the proportions and dimensions of the legs and crossbars as well as the effective leg clamping system;
- The length of the top is 180 cm (5.9'), extendable up to 283 cm (9.3') with an extension (accessory). Connect two tables together to obtain a worktop of 360 cm (11.8') in length (and variable with from 100 to 150 cm – 3.3' to 5'). This feature makes the BM180 PLUS the perfect workstation for slabs of any size;
- The leg closing system allows a very quick and easy closing of the legs;

- Being the anodized aluminum profiles (which make up the worktop) spaced and movable, it is possible to perform cuts with angle grinder and diamond blade without damaging them. Moreover, the special tile-support-cylinders (available as an accessory) create a gap between the tile and the worktop allowing to perform cuts with angle grinders in every direction without damaging the bench;
- It possible to eventually add extra aluminum profiles (accessory);
- Height of the workbench from the ground adjustable from 80 to 86 cm thanks to the adjustable feet;
- Double ring-nut feet: by rotating the lower ring-nut you adjust the height (no tool needed), by tightening the upper ring-nut you lock the foot in the desired position;
- Maximum load capacity (single table): 150 Kg (331 lbs);
- Wide range of accessories available.

"TSE180" with folding legs/transport position.

"TSE180" mounted on 2 "BM180 PLUS" combined.

"TSE180" mounted on 1 "BM180 PLUS".

PACKAGE

- The new lateral tilting extension supports the tile and facilitates splitting after scoring during the cutting process. It also prevents the cut portion from falling.
- The device allows the support of the tile both during and after the splitting phase.
- Splitting can be performed by one single operator.
- Extremely easy to be installed/removed either on a single or on multiple workbenches connected

- together
- Whenever not in use, it can be completely tilted down below the workbench.
- Legs are equipped with adjustable feet for a perfect alignment with the workbench.
- Anodized aluminum profiles with adjustable position to optimize the worktop
- Fully suitable with both BM180 and BM180PLUS workbenches.

POSSIBLE COMBINATION WITH BM180 BENCHES

PACKAGE

KIT OF 20 TILE-SUPPORT CYLINDERS TO PERFORM CUT WITH ANGLE GRINDER ON BM180^{MkIII} AND BM180 PLUS^{MkIII} TABLES

- To perform with ease cuts with angle grinder (even l-shaped and/or squares holes) on tiles up to 160x320 cm (5.3'x11.9') in any direction.
- One kit consists of 20 polypropylene supports (h56 mm - Ø 60 mm | h2.2" - Ø 2.4") that once inserted along the aluminum profiles, supports the tile and creates a gap between it and the worktop. This allows to perform cuts with angle grinders in any direction without damaging the bench.
- The possibility to freely positioning the cylinders at any point on the worktop allows to choose their layout according to the tile dimension and the kind of cut to be done. Even in the most difficult situations and for the most complex cuts.
- Inserting and fixing is extremely easy and fast: just insert the screw underneath each cylinder into the dedicated slot of each aluminum profiles (which made up the worktop) and slide the supports in the desired position. Slightly rotate the cylinders to fix them.
- Its design and the premium quality polymer they are built with make the cylinders extremely sturdy. They are designed to support tiles of any weight and to last potentially forever.
- The supports are compatible with both BM180^{MkIII} and BM180 PLUS^{MkIII} as well as previous versions if equipped with top-grooved aluminum profiles.
- The supports do not preclude the use of the wide range of accessories dedicated to BM180 tables nor the use of POWER-RAIZOR both in combination with water-cut kit (Art.433PWWA) and/or the dust suppression device for dry cut (Art.433PWZPA).

SPECIFICATIONS AND VERSIONS KIT TILE-SUPPORT CYLINDERS

Part No.	Barcode	Box	Description	BM180 ^{MkIII}	BM180 PLUS ^{MkIII}	Use	Weight	Dimensions	Volume
394CC 01A	8050532004207	1	Kit of 20 tile-support cylinders for BM180 ^{MkIII} and BM180 PLUS ^{MkIII}	•	•	on profiles with groove	0,9 Kg 1.9 lbs	39x39xh 15 cm 15 3/4"x15 3/4"x h 6"	1,2 Kg 2.8 lbs

SIDE PROFILES FOR SCORING AND CUT

- The side profile connects to the short side of the table offering a continuous support for score & cut the short side of the tile (i.e.: cut 120 cm side of a 120x240 cm tile).
- Available in two lengths: 124 cm and 164 cm (4' and 5.4'). Therefore, suitable even for the largest tiles.
- We recommend the use of the 164 cm (5.4') version only with BM180 PLUS^{MkIII}.
- Version 124 cm (4') fits on both BM180^{MkIII} and BM180 PLUS^{MkIII}.
- Free to slide in and out when mounted so to not interfere with operator when doesn't need them.
