Texas Granite can be buffed to achieve different shine levels. From a high gloss to a low gloss, you've got options!*

High gloss

Medium gloss

Low gloss

*SHINE LEVELS ARE ACHIEVED FROM BUFFING DURING MAINTENANCE. FACTORY TILES DELIVERED IN STANDARD GLOSS FINISH ONLY (SLIGHTLY LESS SHINY THAN HIGH GLOSS).

The floor that never needs to be waxed to stay beautiful

- Achieve your own gloss effect from matte to high gloss by simple buffing without wax—simply adjust the RPM level on the buffing machine
- Benefit from a continuous floor between areas that require different gloss levels, such as low gloss for critical care dementia application
- High reflective value lowers lighting costs

Easy maintenance and low installation cost

- Achieve high gloss by simple buffing — no wax required

Occupancy ready

- Spot cleaning possible
- No stripping or waxing required

Phthalate-free and low VOC, FloorScore® certified

- No negative impact on wastewater contamination from harmful waxing chemicals, and indoor air quality
- 30% savings on water and detergent use

Texas Granite® is backed by proven performance over decades of use in heavy commercial environments.

Excellent resistance to rolling loads: from cafeteria tables to heavy rolling equipment and medical beds.

Long wearing homogeneous construction

- Through and through chip design construction
- True non-directional design, no arrows to follow during installation
- Total thickness of 1/8" (3.17mm), thicker than other resilient floors, more durable and more forgiving of subfloor imperfections

Highly durable with a 20-year commercial limited warranty

- 30-year life expectancy

Superior indentation resistance per ASTM F 970 modified up to 2500 psi

"At UC Medicine, we are hard on our floor. As a level 1 trauma ED, our floors are put to the test and maintenance is key. In an active ED, we are challenged with a maintenance protocol and an inability to wax floors on a regular basis. Texas Granite is durable and has an inherent shine only requiring water and buffing and no wax. It is the perfect floor for us."

Erika Voss Turckes, AIA

Assistant Director of Interiors and Architectural Design
The University of Chicago Medicine

TECHNICAL SPECIFICATIONS

Gauge	3.17 mm	0.125"
Sizes	305 mm x 305 mm Micro-Ground™ 610 mm x 610 mm Micro-Ground™ 915 mm x 915 mm	12" X 12" Micro-Ground™ 24" X 24" Micro-Ground™ 36" X 36"
Product Classification:		
ASTM F 1700	Solid Vinyl Floor Tile	Class I, Type A, Monolithic
ASTM D 2047	Static Coefficient of Friction (Leather / Neolite)	≥ 0.5 (leather) / ≥ 1.0 (Neolite)
ASTM D 3389	Abrasion Resistance (H-22 500 g @ 1,000 cycles)	Pass
ASTM E 648	Critical Radiant Flux CRF (W/cm ²)	≥ 0.45
ASTM E 662	Smoke Density	≤ 450
ASTM F 137	Flexibility	Pass
ASTM F 925	Chemical Resistance	Meets requirements (details upon request)
ASTM F 970	Static Load	≤ 0.005"
ASTM F 1514	Heat Stability	ΔE ≤ 8.0
ASTM F 1515	Light Stability	ΔE ≤ 8.0
ASTM F 1914	Residual Indentation	< 8 %
ASTM F 2055	Squareness	0.010" maximum
Indoor Air Quality (IAQ):		FloorScore Certified by SCS Certification
Volatile Organic Compounds (VOC's)		Registration Number SCS-FS-01495
Maintenance		No waxing
Adhesive	AD-610	Regular traffic
	AD-590	Heavy rolling traffic
Limited Wear Warranty		20 years
