Roppe Rubber Tile offers the best of all worlds: superior functionality, appealing aesthetics, and excellent life-cycle value. It is naturally slip resistant and durable, plus provides outstanding underfoot comfort and noise reduction. Our Rubber Tile contributes to healthier indoor environments because it's free of Red List chemicals, PVC, phthalates and halogens.

Custom flooring logos can also bring a personal touch to corporate or educational facilities adding visual interest while reinforcing brand identities. At end of life, this product can be recycled through the IMPACT take-back program.

LONG-TERM BENEFITS OF RUBBER

Industry studies have shown that flooring materials with a higher initial cost do not necessarily translate to a higher cost in the long run. In fact, findings indicate flooring materials with a higher initial cost will perform more cost effectively over many years. For example, while rubber flooring may cost more initially, the cost of maintaining it is lower. And because it's extremely durable, it lasts a very long time. So, when examining long-term costs, it is important to consider the total cost of ownership. With the right information, you can help customers control costs – not just on the initial project, but also in the long run.

PERFORMANCE COMPOUND

Roppe Performance Compound Rubber Tile is a homogenous rubber tile specifically designed for use in areas that may be subject to oil, grease and other petroleum hydrocarbons. The natural durability and dimensional stability of Performance Compound rubber make this flooring ideal for most high traffic commercial installations that would otherwise not be able to withstand contact with oil and grease.

Performance Compound is durable enough to resist abrasion, impact, scuffs, gouging, burns and most chemicals, yet is also flexible enough to ease installation. The ability to maintain Performance Compound by dry buffing, rather than using waxes or finishes, decreases the long-term maintenance costs and environmental strain due to chemical use and waste.

Ideal applications include **automotive** (repair shops, quick lube facilities and automobile storage), **industrial** (manufacturing facilities, refining facilities and material storage) and **transportation** (repair facilities, garages and equipment storage).

Roppe Performance Compound Rubber Tile is only available in the following solid colors:

100
black

RUBBER FLOORING

SMOOTH | RAISED DESIGN | DIMENSIONS

Red List Chemical Free

Free of Red List chemicals, PVC, phthalates and halogens. The ReNew palette is also cork-infused and contains 13% bio-based content from rapidly renewable resources.

Sustainable Solutions

Made in the U.S.A. and meets GREENGUARD GOLD, FloorScore®, NSF332 Platinum and CHPS criteria.

Easy Living

Designed for high durability and ease of maintenance throughout the product life cycle. Provides underfoot comfort, reduced noise from foot traffic and has an inherent slip resistance.

Meets Daily Demands

Stands up well to constant traffic from wheelchairs, shopping carts, luggage carriers or dollies and resists scuffing, gouging, most chemicals and common substances.

Variety of Profiles

Available in Smooth finish and Raised Design profiles including Slate, Low Profile, Textured, Square, Hammered, Vantage and Warning Tile designs. Dimensions profiles: Crackle, Random and Stripe.

Single Price Point

All colors available at a Single Price Point within your selected palette. ReNew palette is available in Smooth, Hammered and Textured profiles only. Fiesta® and Symmetry palettes are available in Dimensions profiles as a special order.

Installation
